Over the course of 5 days, children interested in hockey (girls) and rugby (boys) will get the opportunity to take part in fun and challenging activities to help them to develop the characteristics and attributes required to be an effective team player at the same time as enhancing the skills specific to effective hockey and rugby performance. Each morning will begin with fun warm up activities and games followed by practical sessions in match play, skill development and fitness. Furthermore, players will discuss personal and team targets for the season; consider growth mind-set and its importance to performance development; and learn about the skills needed for effective leadership.
